

WincovER Certified Automation Products (as at 17/05/2022)

Window Coverings and Outdoor Shades may be operated using Manual controls, or Timer or Sensor driven automation. Professionally installed, pre-programmed Timer or Sensor driven automation make window coverings and outdoor shades more energy efficient.

This is a list of Timers and Sensors available in Australia that are suitable to achieve WincovER Timer or Sensor ratings.

Please consult the supplier's website or your retailer for installation, programming and operating information.
